

Position: Full-Time

Company

Criminal Justice Coordinating Council was established as an entity under ORC 167.01-08 and 181.54 (subsequently amended to 5502.64) to provide planning, analysis, training, information management and technical assistance in Toledo, OH, Lucas County. The information management division is the Northwest Ohio Regional Information System or NORIS.

Position Description

NORIS is searching for an experienced object-oriented programmer to develop and maintain the various applications that criminal justice agencies in Northwest Ohio rely on to complete their jobs 24x7. Our developer will work with a NORIS team and external criminal justice agency users. Our goal is to make our users' jobs easier and faster so they can concentrate on their criminal justice job in the jails, courts and police vehicles. This position requires the candidate to design, code, test and debug our software.

Development Experience

- Three years of experience programming (C#, ASP.NET, Python, etc.)
- Perform most programming and analysis tasks independently with minimal direction.
- Knowledge regarding best practices for application security.
- One year T-SQL experience writing stored procedures and queries.
- Experience with Rest API, JSON, and web services.

Expectations

- Self-motivated with a strong work ethic and attention to detail.
- Works well with a team.
- Proven ability to master new technologies.
- Excellent written and verbal communication and interpersonal skills.
- Ability to communicate in business terms with stakeholders.
- Willingness to try different techniques and suggest potential system improvements.

Benefits

- Medical, vision, dental, life
- Retirement: Ohio Public Employees Retire System.
- 13 holidays
- Paid vacation, sick leave.
- Background Check – required.
